

Associate Deputy to the DCI  
for the Intelligence  
Community

John:

The Director returned this paper to me on  
3 August with the following comments:

"OK - good points. Have we any eventual hope  
of taking over the DOT facility?"

I will again establish contact with the Department  
of Transportation, but I know they have their own  
future expansion plans and feel strongly about  
them.
